

INTERPRET A DATA VISUALIZATION REPORT

INSIGHT – 1:

Data Presentation is a top skill only in the United Kingdom because United Kingdom is the only country that has a global average rank for the Data Presentation skill for the year 2016. On the dashboard I clicked on the Data Presentation skill then global average rank for all the countries were highlighted.

INSIGHT – 2:

Statistical analysis and data mining is the skill that employers from all the countries need most. This is the only skill that has been listed as a top skill and given global average rank from all the countries. I clicked on the statistical analysis and data mining skill on the dashboard then the global average rank from all the countries were highlighted for this skill.
